## TOUCHED UP GROVER

MEMBERS OF CONGRESS INDULGE IN RETROSPECTIVE PANIC.

Consular and Diplomatic Appropriation Bills Lend Opportunity for Touching Upon Wide Variety of Topics—Grover's Hawaiian Policy is Mentioned and Van Allen's Appointment—Democrats Try to Rob Reed.

WASHINGTON, April 18.—The house devoted the entire day to debate on the consular and diplomatic appropriation bills. It touched a wide variety of subjects, and at times was brim full of interesting personalities. The Hawaiian policy of the present administration came in for a good share of attention. The appointment of Van Allen as minister to Italy provoked a very extended discussion. It was held up to ridicule by the Republicans, who intimated that it was a direct reward for his \$50,000 contribution to the Democratic campaign fund. The Democrats in defending the appointment, tried to counter on the Harrison administration by detailing the history of the \$400,000 campaign fund raised by ex-Poetmaster General Wauson. Later in the day Mr. Wise took up the authorship of quorum counting as a parliamentary anti-bulwarking expedient and quoted from the record to show that the first proposition in this line had been offered by J. Randolph Tucker, a Virginia Democrat, in 1880, when it was vigorously opposed by Mr. Reed.

Mr. Walker of Massachusetts, met this attack on the speaker's fame by shrieking out before the house the record of the Democratic opposition to the quorum counting rule in the Fifty-first congress. Speaker Reed leading the opposition. Mr. Grover (Rep., Pa.) took the floor and vigorously arraigned the Hawaiian policy of the administration. Mr. McCleary (Dem., Ky.) in reply stated that inasmuch as the house had discussed the Hawaiian matter for five days and had adopted resolutions expressing the sense of the house, he regarded it as adjudicated. Mr. Hooker (Dem., Mich.), a member of the foreign affairs committee, followed with a defense of the president's Hawaiian policy.

"It is still the purpose of the president to restore the queen," asked Mr. Van Voorhis (Rep., N. Y.).

Mr. Milliken (Rep., Maine) replied to some of Mr. Hooker's strictures on ex-minister Stevenson, in the course of which he predicted it would not be many years before the American flag would be raised over Hawaii, and under auspices that would insure its permanent retention.

Mr. Cummins (Dem., N. Y.) made some practical suggestions in advocacy of a complete reform of the consular service in the interest of the extension of our foreign trade.

Mr. Quigg (Rep., N. Y.) in the course of general remarks, criticizing the Van Allen appointment, got into a verbal duel with Mr. Eyles (Dem., of Tennessee). He had in reply to a question from Mr. Eyles asserted that he had been elected to congress last January because a chance had been afforded to the Fourteenth New York congressional district, with its 10,000 Democratic majority, to elect an aye and nay vote on the Wilson bill.

"Did you accomplish what you came here for?" asked Mr. Eyles.

"I did not say I would," replied Mr. Quigg. "I said the election of a Republican in a Democratic district, directed toward defeating the Wilson bill, and I think the Wilson bill is smashed."

"Perhaps you are the author of the speech against the Wilson bill delivered the other day by Senator Hill?" suggested Mr. Eyles, sarcastically.

"I had no honor," replied Mr. Quigg. "We Republicans know he is able to take care of himself. He has done so frequently to our dismay and discomfort, and I thought to your satisfaction."

Mr. Meritt of Virginia, and Eyles of Tennessee, took a hand in the discussion of the Van Allen incident, using the Harrison appointment as a means of meeting all threats.

"Certain facts have been developed by this debate," interrupted Mr. Reed, first, that Whitney is a good man; second, that Cleveland is a good man, and third that Van Allen was not appointed to office because he contributed \$50,000 to the Democratic campaign fund. Now, why was he appointed?"

"If he had been appointed because of his contribution," said Mr. Eyles, "that would be the best reason for his appointment by the Democratic press is saying."

He created great amusement by telling how the Democratic national convention prepared a platform and how, afterward, "that great and good man" had written a letter modifying it. Turning to

## JAIL BIRDS' WORK

IDENTITY OF WINTERMUTES MURDERERS SAID TO BE KNOWN.

Gumley Brothers, Cattle Thieves and Jail Birds, Alleged to be the Men Who Shot Down the Oklahoma Settler Yesterday—A Second Murder Yesterday Charged to Their Account—Posses in Hot Pursuit.

PARKER, O. T., April 18.—[Special.]—The shooting of Ed Wintermute is now known to be the work of the Gumley brothers, who formerly ran a meat market in this city. They were convicted of cattle-stealing and sentenced to the penitentiary. They escaped from the jail, as told in yesterday's EAGLE. In company with two other escaped prisoners they started across the country for the Wichita mountains. They plundered the homes and stables of the settlers and obtained arms and horses.

A courier brought the news of the shooting to this city and a posse of officers, headed by J. C. Robinson, a veteran officer, left for the scene of the murder. The shooting was witnessed by several men who were working on adjoining claims. Their description fits the escaped prisoners exactly.

The Gumleys are known to be very men and will not be captured without a fight. The men with them are cowboys and killers and know every hiding place and trail in the country. The settlers with whom they took refuge state that they are well armed and provided with plenty of ammunition.

Parties of officers were arriving here all day yesterday and chasing today. The officers had a late start and it is doubtful if they overtake the desperadoes. But the desperadoes have far more dangerous foes to cope with than the officers, and they are the settlers in that locality. The whole country has turned out to avenge the murder, and if they overtake the desperadoes they will hang every man.

The dispatch stating that Mel Ransom is dead is a mistake. He was still alive this morning.

SHERIFFS POSSE IN PURSUIT. ENID, O. T., April 18.—[Special.]—The sheriff's posse in pursuit of the men who killed Ed Wintermute, west of Ponca, yesterday, passed through here today. The officers are about ten hours behind the murderers, and they assert that they will follow them to the Gypsum hills and either capture or kill them all. One of the possemen, however, has killed two men since their escape from Newkirk jail, but he did not give the name of the second victim.

CLOUD BURST AT PERRY. PERRY, O. T., April 18.—Just after midnight, rain poured down in sheets for two hours and great damage was done. The stone building of Barnum and Mattiger, which was nearing completion, collapsed, burned, and great damage was done. Some of the city bridges were wrecked. Scores of people living on the low lands near Cow creek had to leave their homes which were waist deep in water. No lives were lost.

POINT FOR CLYDE. OKLAHOMA CITY, April 18.—[Special.]—A telegram from Washington says: The supreme court today granted the motion of Redick, Lewis & Snyder, in behalf of Clyde McVickers, to set aside the verdict of the grand jury in the case of the government's expense. A motion was made by the solicitor general to advance the cause on the docket which is under consideration by the court.

WATONGA WINNINGS. Court Proceedings—Fine Seasons—Really Requested—Old Settlers Reunion. WATONGA, O. T., April 18.—[Special.]—William McVickers has been found guilty of grand larceny, and now awaits the mercy of the law and Judge Burford. This was a case wherein McVickers was charged with stealing cattle and supplying the local meat market about one year ago. Several other parties are implicated, and justice may make this term of court interesting to some of them before it adjourns.

Blaine county has a peculiarly educated and enlightened class of citizens. All have heard of and are familiar with the opinion of every case thus far in the second term of court. It is expensive during court time for our people to be so well informed.

The usual salutatory for strangers is, "Can you tell me where I can find a claim for sale?"

The recent rains have been of the kind usually prayed for, and we are all thankful.

Bill Koch has purchased the Andrus property and is now engaged in erecting a two story business building thereupon.

The old settlers of our town and county are anxious to take over the time they will adjourn in a few days to meet again at our next district court.

Judge Kirkland decided that "and" and "also" implied the same meaning in a motion before his court last week.

## OKLAHOMA REDIVIVUS.

OKLAHOMA CITY, O. T., April 18.—[Special.]—Fine rains soaking rains, minus special accompaniments, are reported all over our territory, and as usual some "old settlers" is reported as declaring that the wheat is made, and will need no more rain to finish up on. This is the same old chestnut which was plucked from the original chestnut tree in the Garden of Eden by Adam, senior. As Oklahoma and the Indian Territory are really depending on agriculture and grazing, it follows that moisture is the essential, and thus far we have had, already, more rain than all of last season put together; and yet, with only a moderate supply of moisture in 1893, we raised a fine general crop.

Our genial fellow citizen Colonel T. W. Johnson, has just returned from Washington, and reports all in fine shape for Oklahoma and adjacent. This has been the general and satisfactory state of things ever since the little giant, Oklahoma, was born. The little giant gets lots of taffy from Washington, and in spite of it grows, and prospers, and somehow continues to astonish people by his robustness, as well as an infant so coddled, adored, and caressed, and pampered, and petted and called a darling deer? Well, when a child grows to a robust majority in about five years, and keeps growing with the air of a young fashionable dude (stove pipe hat and high heeled boots) and is spilling for a fight, no wonder he gets all sorts of treatment, but the same is a healthy regimen; and in due time he will show his older sisters and brothers, that he fills the bill perfectly. It is whispered around that Hon. Sidney Clark, ex-governor of the state, is of sufficient length to knock the persimmon. Time will show.

Mr. Hedder retired from the post office finally on Monday, the 16th. This completes five years of constant service, and he declares "well done, good and faithful servant." Such is the way of the post office, and the post office is a very important institution in our territory. It is a place where the people can get their mail, and where the government can get its money.

Residence building has taken a lively start for the season and many fine buildings are going up under the active eye and hand of the architect. This is a sure sign of prosperity, a genuine object lesson. So move it be.

RENNESSEY HAPPENINGS. Good Rains—Social Events—Local Politics—Prospective Developments. RENNESSEY, O. T., April 18.—[Special.]—The recent rains in this locality have been a great help to the wheat and oats crops, which are very promising. Many farmers have commenced harvesting. The yield promises greater than last year.

Three brick yards have commenced work, and will soon have the brick ready for a large school house and due block on Shade's addition.

Professor Henssney's orchestra orchestra gave an entertainment last evening at a crowded house at the Congregational church. Among the special features of the program, was the singing by Mrs. Ada Smith, the accomplished daughter of our popular grain merchant, Mr. A. Z. Smith. Henssney's orchestra is one of the best in the territory, and is well known to all.

Pete Brough of Kingfisher and John T. Robinson of Kiowa are here looking up a location for a wholesale and retail grocery, and will locate if a suitable building can be had.

Henssney merchants are getting a big trade from the strip, and no complaints are made here of hard times.

Two tickets are in the field for city officials, composed of the best men of the town, who will conduct the affairs of Henssney in an able and efficient manner. City warrants are not known here; when a man has a claim against Henssney he can get his cash, and the city has a surplus of several hundred dollars.

No politics enter into the city elections here. Henssney will forge to the front this year in a substantial manner. Several new brick blocks will be erected, a cotton gin and another mill are talked of, and the Texas Brewing company expect to put in a large ice plant at once.

Over 1,500 car loads of wheat was shipped from here last season, and our grain men expect to beat the record this year. No hold-ups have occurred in this vicinity for some time. The latest was a small country store a few miles west of town, where a dray was backed up to the door and loaded the entire contents, driving off with a "thank you, sir," to the proprietor. The Rock Island has put in a well here, 20 feet in diameter, and it has 28 feet of water. It is said the well is for the division which many expect to see located here.

Politics have begun to warm up in the territory, and many of the Henssney Democrats have expressed a desire to get into the Henssney camp. Of course they will be admitted, on probation.

A large delegation of Old Fellows and Daughters of Henssney will attend the 75th anniversary of the birthday of Abraham Lincoln on the 26th. A large crowd will be in from Henssney and Kingfisher.

SPANISH TITLE CONFIRMED. SANTA FE, N. M., April 18.—The United States court of private land claims announced today a decision confirming the title to Batolome Fernandez, his heirs and assigns, in Valencia county, for about 20,000 acres, made in 1540 by the Spanish general of New Mexico under the grant of

## USED THEIR PICKS

RIOTERS PRECIPITATE A FLOODY FIGHT OVER A WAGE CONFLICT.

Pierce War, With Shovels and Picks on One Side and Revolvers on the Other, Results in the Killing of Two Men and the Probably Fatal Injury of a Michigan Sheriff and Many Other Participants. Particulars of the Fray.

DETROIT, Mich., April 18.—Wayne county's sheriff lies in a precarious condition tonight, his body lacerated by the shovels of enraged rioters. Two Polish laborers are dead and the number wounded is not yet definitely known. These unfortunate conditions are the result of a conflict which occurred at noon today between some 400 Poles and Sheriff Collins and a number of allies. The riot was brought about by differences of opinion over wages to be paid laborers by the city water commissioners for digging trenches for pipe laying in Grosse Pointe township, just east of the city limits. The commissioners decided to pay by the cubic yard, but for the past day or two, 300 Poles had hung about the vicinity, declaring they would not work nor allow others to unless paid \$1.50 per day. No outbreak was anticipated but as a precaution, Sheriff Collins and five deputies went to the scene to protect those who wished to work. Work progressed on a small scale during the morning but Engineer Williams, becoming alarmed at the aspect of things, consulted some of the commissioners shortly before noon and was instructed to quit work for the time being. Before he returned, however, rioting began.

The crowd thereupon began to demolish the trenching, and the rioters, after plotting for reinforcements, began to address the mob to pacify them. One of the Poles began an opposition language. The crowd thereupon began to demolish the trenching, and the rioters, after plotting for reinforcements, began to address the mob to pacify them.
